TLS

SLEEP BETTER WITH CONTENT ENCRYPTION

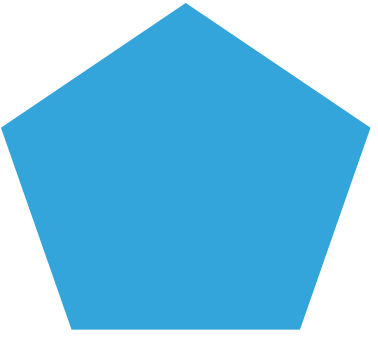
WHAT IS CONTENT ENCRYPTION?

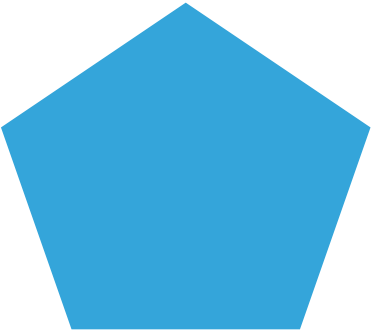
- Encrypt** data ‘itself’
- E.g. encrypted** data at rest
- Even: Protected** data while working with it

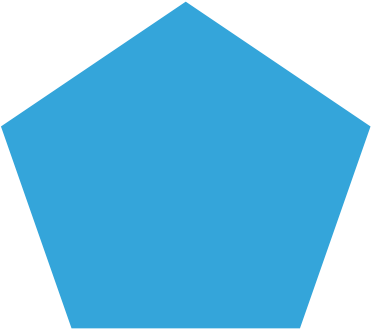
CLIENT

WHAT ABOUT TLS?

- Data is at rest for ~99.99998% of the time (*)
- Also: Heartbleed, POODLE, DROWN, Lucky13, Logjam, FREAK, …
- Also: Backups!







(*) 10s transit / 2 years storage

11

(**) Cryptographically protected - details later!
