**TalkTalk** has been fined a record £400,000 fine for security failings which led to the theft of personal data of almost 157,000 customers.

The **cyber attack** in October last year exposed the latest security failure for the company, which was **forced to admit** it had not encrypted some personal details of customers.

The Information Commissioner's Office (ICO) said the attack could have been prevented if TalkTalk had taken basic steps to protect customers' information.
